SUMMARY

I'm a passionate and certified programmer in the languages C++, PSeInt, HTML/CSS, AI, JavaScript. focused on helping people through evidence-based nutrition I build interactive tools for budgeting and expense tracking, habit coaching, and data visualizations that turn research into clear, actionable plans. As an OSTC Student Ambassador, I help out in events for OSTC-NE campus, some of these events are Career Night, Lake Orion Showcase ,and others. I also prepare for competitions, using my own analytics (periodized macros, training load, and sleep metrics) to refine caloric deficit and caloric surplus (cut/bulk) phases and sharing those insights so others can compete smarter, safer, and stronger.
